

POYRAZ AVSEVER

FRONTEND DEVELOPER & UI/UX DESIGNER

Ankara/Yenimahalle | poyrazavsever@gmail.com | www.pavsever.com

ABOUT ME

I am a passionate and self-motivated Software Engineering student with experience in full-stack development, UI/UX design, and community management. I have worked on various projects involving web technologies, 3D graphics, and AI-driven solutions. In addition to my technical skills, I have strong public speaking and debate experience, which helps me communicate complex ideas effectively. I am eager to contribute to innovative projects and continue improving my skills in a dynamic environment.

WORK EXPERIENCE

ARC Foreign Trade – Fullstack Developer

02/2025 - 05/2025

- I handle UI/UX design, frontend-backend development, and various software solutions for client websites.
- I also manage social media content and design to support clients' digital presence..

Ottoqua Techno Team – Frontend Developer

10/2024 - Present

- Developing and managing web applications for interactive dashboards.
- Collaborating with a team to enhance the user experience.
- Contributing to Next.js, React Native, Express.js based projects.

Tarvina Software Technologies, Intern Fullstack Developer

09/2024 - 12/2024

- Worked as a Full-Stack Developer Intern, focusing on React and Node.js.
- Participated in daily stand-up meetings, improving team communication and task management.
- Designed and implemented wireframes and UI components for various projects

Freelance Software & Design Projects

07/2022 - Present

- Developed custom web applications and dashboards for clients in e-commerce and tech.
- Created interactive and modern UI/UX designs using Figma and Adobe XD.
- Built and deployed full-stack solutions with React, Next.js, Node.js, and Firebase.
- Provided technical consulting and mentoring for startup projects or hackatons.

PROJECTS

Readme Maker for "github users"

06/2024 - 07/2024

- Developed a web-based tool that helps developers generate professional README files effortlessly.
- Implemented a dynamic form system that allows users to customize sections like project description, installation steps, and usage instructions.
- Used React, Next.js, and TailwindCSS to create a seamless and responsive UI.
- Integrated Markdown preview functionality to enhance user experience.
- Designed the platform to be open-source, allowing developers to contribute and extend its features.

- Developed a web-based management system for university clubs to organize events, manage members, and track activities efficiently.
- Designed a role-based access system, allowing different levels of permissions for club presidents, members, and administrators.
- Built using Next.js, Node.js, and Firebase, ensuring scalability and real-time updates.
- Implemented event scheduling, announcement posting, and membership management features.
- Focused on an intuitive and responsive UI for seamless navigation and usability.

Startup Collaboration Platform

02/2025 - Present

- Developed a platform for entrepreneurs to share their ideas, find teammates, and collaborate on startup projects.
- Implemented a matching system that connects users based on skills, interests, and project needs.
- Designed an interactive dashboard where users can create project listings, chat with potential co-founders, and manage their teams.
- Built using Next.js, Firebase, and TailwindCSS, ensuring a smooth and scalable experience.
- Focused on creating an engaging and supportive ecosystem for innovators to bring their ideas to life.

Turkish Developers Community Website

06/2024 - 09/2024

- Actively managing and contributing to Turkish Developers, a growing tech community that connects developers across Turkey.
- Organized events, mentorship programs, and networking opportunities to foster collaboration and knowledge sharing.
- Developed and maintained the community platform, ensuring a structured and engaging environment for discussions and project showcases.
- Led initiatives to support junior developers, providing resources, career guidance, and technical workshops.
- Focused on creating a strong developer ecosystem that encourages innovation and professional growth.

SKILLS

Programming Languages	Frontend Development	Backend Development
JavaScript	React.js	Node.js
TypeScript	Next.js	Express.js
Python	TailwindCSS	Firebase
	Bootstrap	Mongodb
		MySQL
UI/UX & Design		
Figma		
Wireframing		
Design Systems
